

TECHNICAL DATA SHEET
LAMI N SHINE

LAMI N SHINE

DESCRIPTION

LAMI N SHINE offers double action: it polishes and enhances the color of the material. Its formulation allows for quick application while enabling the stone to breathe, allowing residual humidity to escape. LAMI N SHINE penetrates deeply into the material, enhancing its color and giving it an attractive, deep, wet look. The product does not leave a film, making it an ideal polisher and color enhancer for stones.

Chemical Characteristics:

Appearance: Liquid

Color: Transparent

Odor: Characteristic

Specific Gravity at 20°C (68°F): 1.40 ± 0.02

Hydro-solubility: Not soluble

pH: N/A

Shelf Life at 20°C (68°F): 24 months in original container

TOOLS REQUIRED FOR APPLICATION:

Brush Spray

INSTRUCTIONS FOR USE

Ensure the surface is clean and dry. Remove any stains, mildew, or crusting, as they may become more difficult to remove once the protection is applied. Apply LAMI N SHINE using a brush or roller. After 10 minutes, rub the surface with a clean cloth to remove any excess product and achieve the desired effect.

Application Tools:

- Cloth
- Brush

Suggestions for Use and Recommendations:

- Do not dilute the product with water or any other solvents as it is ready for use.
- The surface must be completely dry before application.
- After treatment, allow the stone to dry for 24 hours to ensure complete polymerization.
- This product is intended for indoor use only.
- Perform a preliminary test on a small, inconspicuous area before applying to the entire surface.

Application Surfaces:

- Marble
- Granite
- Agglomerated stones with a polished finish

Coverage: 1 liter (1.05 quart) treats 20–30 sqm (210–320 sq. ft.), depending on the material's finish and porosity.

Safety Measures:

- Keep out of reach of children.
